

PLASTIC PIPE CAPS

CE Series

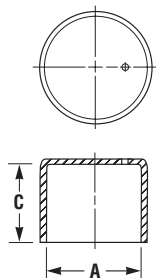

These durable pipe caps offer excellent protection against impact damage and prohibit debris from entering the pipe. Parts CE-309 through 327 are designed with an NPT taper; all other parts are straight-walled.

Material: Low-Density Polyethylene **Color:** Black

VENTED PIPE CAPS *VP Series*

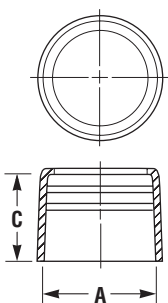

The VP Series provides protection against impact damage and contamination in transit. The ventilation hole assures equalized atmospheric pressure inside the pipe, preventing pressure build-up associated with dislodging the cap. These caps have been designed for easy installation and removal.

Material: Low-Density Polyethylene **Color:** Blue

Caplug No.	Dimensions					Packaging

OPEN-END THREAD PROTECTORS *OE Series*

The OE Series is designed to protect threaded pipe and threaded conduit during transit, storage and handling. A locking bead ensures that the cap fits on snugly and stays intact until intentionally removed.

Material: Low-Density Polyethylene **Color:** See chart.

New Tear-tab design

OPEN-END THREAD PROTECTORS

New *OE Series*

- Large pull-tab for quick and easy removal
- Economical solution to protect pipe ends during shipping and storage
- Sizes 2-1/2" through 10" will be available in 2011
- Patented design with other patents pending

EPN-250 Series Bevel-Edge Protectors for Pipe Ends

These caps were designed to cradle delicate beveled edge pipe ends. These durable caps are easy to install and remain securely on the pipe end until intentionally removed.

Material: Linear Low-Density Polyethylene **Color*:** Black

FABRICATED PIPE CAPS

FPC Series

- Can be manufactured to fit any size, even fractional inches, in just one week
- Flexible skirt for easy installation
- Economical alternative to a two-piece cap
- Requires no assembly
- Patent-pending design

Steel Pipe Caps

Sizes Available:

1/8" - 48"
